PROFESSIONAL EXPERIENCE

Python Web Developer at Codevance | jan/23 - now

I highlight my experience within the scope of my responsibilities, focusing on the maintenance and continuous development of new features in Django systems. Among these achievements, I emphasize my crucial role in enhancing tintim.app, a powerful tool for tracking WhatsApp sales, adopted by over 200 companies. In my professional routine, I have a strong expertise with Docker containers, tasks on Linux servers, and advanced skills in incident investigations using log analysis tools.

Python Backend Developer at GetHash | ago/22 - oct/22

Develop Python Flask API's, databases, deploy Linux servers and configure using Nginx, pm2 and docker, projects documentations, git , Azure Devops.

Freelancer at Fiverr, Vintepila and 99freelas | mar/21 - ago/22

I work with programming services using python3. Linear and logistic Regression, Graphs Algorithms, rewriting coding, Search Algorithms.

Data Analyst Intern at CREVIP | mai/21 - out/21

Work making data insights, writing reports and creating graphs. Using python, jupyter notebook, pandas, matplotlib, Microsoft Office.

EDUCATION HISTORY

Estácio

Information Systems Bachelor | Apr 2023 - Present

Learning about algorithms, computers, web fundamentals, history, security and more!

Federal Institute of Maranhão

Computer Science Graduation | Mar 2020 - Jun 2022

Status: Stopped, not finished.

Learned about algorithms and the basis for continuing to improve.

CERTIFICATIONS

Lab with Pandas and Python, 3H
